

Diversity and Equality

“The Canadian Ski Instructors' Alliance stands for equality”.

These are challenging times.

Our sphere of influence is the passion for our sport and our love of the mountains. It is this realm that gives us a unique opportunity to help shape the future.

We want everyone to join us on the slopes. Everyone. In recent months, we have made some of the biggest changes in the organization's history. It is our goal to embrace all those communities that have been underrepresented in our organization as Instructors. We are motivated to provide an educational system that provides the opportunity for anyone to be successful.

A deep connection is the cornerstone of us being compassionate and respectful to one another. Our sport creates such a connection. It is the essence of our profession. **Our journey to be better never ends.**
